CAEP Standards 1 & 2, Diversity Theme, CAEP Components and Intasc Alignment

(an extension of Donna Gollnick and Deborah Eldridge's Diversity Presentation at the Fall 2013 CAEP Conference)

Standard 1: The provider ensures that candidates develop a deep understanding of the critical concepts and principles of their discipline and, by completion, are able to use discipline-specific practices flexibly to advance the learning of all students toward attainment of college- and career-readiness standards.

CAEP	Theme Proficiencies -	CAEP Component	InTASC Standard: Essential	Notes
	Diversity (p. 29)		Knowledge	
·	orating multiple ectives in content	1.1 Candidates demonstrate an understanding of the 10 InTASC standards at the appropriate progression level(s) in the following categories: the learner and learning; content; instructional practice; and professional responsibility.	 2(j) The teacher understands that learners bring assets for learning based on their individual experiences, abilities, talents, prior learning, and peer and social group interactions, as well as language, culture, family, and community values. 2(k) The teacher knows how to access information about the values of diverse cultures and communities and how to incorporate learners' experiences, cultures, and community resources into instruction. 4(m) The teacher knows how to integrate culturally relevant content to build on learners' background knowledge. 5(j) The teacher understands how current interdisciplinary themes (e.g., civic literacy, health literacy, global awareness) connect to the core subjects and knows how to weave those themes into meaningful learning experiences.

	learning; content; instructional practice;	instructional decisions that build on	
	and professional responsibility.	learners' strengths and needs.	
		1(g) The teacher understands the role of	
		language and culture in learning and knows	
		how to modify instruction to make	
		language comprehensible and instruction	
		relevant, accessible, and challenging.	
		2(h) The teacher understands students with	
		exceptional needs, including those	
		associated with disabilities and giftedness,	
		and knows how to use strategies and	
		resources to address these needs.	
		2(i) The teacher knows about second	
		language acquisition processes and knows	
		how to incorporate instructional strategies	
		and resources to support language	
		acquisition.	
		8(k) The teacher knows how to apply a	
		range of developmentally, culturally, and	
		linguistically appropriate instructional	
		strategies to achieve learning goals.	

Communication skills of respect for and responsiveness to cultural backgrounds and differing perspectives	1.4 Providers ensure that completers demonstrate skills and commitment that afford all P-12 students access to rigorous college- and career-ready standards (e.g., NextGeneration Science Standards, National Career Readiness Certificate, Common Core State Standards).	1(g) The teacher understands the role of language and culture in learning and knows how to modify instruction to make language comprehensible and instruction relevant, accessible, and challenging. 2(k) The teacher knows how to access information about the values of diverse cultures and communities and how to incorporate learners' experiences, cultures, and community resources into instruction. 3(I) The teacher understands how learner diversity can affect communication and knows how to communicate effectively in differing environments.	
Assessment and data sharing with families	1.2 Providers ensure that completers use research and evidence to develop an understanding of the teaching profession and use both to measure their P-12 students' progress and their own professional practice.	6(k) The teacher understands the range of types and multiple purposes of assessment and how to design, adapt, or select appropriate assessments to address specific learning goals and individual differences, and to minimize sources of bias. 6(p) The teacher understands how to prepare learners for assessments and how to make accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs.	

Self-knowledge and understanding of own frames of references and potential biases

- **1.4** Providers ensure that completers demonstrate skills and commitment that afford all P-12 students access to rigorous college- and career-ready standards (e.g., NextGeneration Science Standards, National Career Readiness Certificate, Common Core State Standards).
- **3.6** Before the provider recommends any completing candidate for licensure or certification, it documents that the candidate understands the expectations of the profession, including codes of ethics, professional standards of practice, and relevant laws and policies. CAEP monitors the development of measures that assess candidates' success and revises standards in light of new results.
- **9(i)** The teacher understands how personal identity, worldview, and prior experience affect perceptions and expectations, and recognizes how they may bias behaviors and interactions with others.
- **9(j)** The teacher understands laws related to learners' rights and teacher responsibilities (e.g., for educational equity, appropriate education for learners with disabilities, confidentiality, privacy, appropriate treatment of learners, reporting in situations related to possible child abuse).
- **10(I)** The teacher understands schools as organizations within a historical, cultural, political, and social context and knows how to work with others across the system to support learners.
- **10(m)** The teacher understands that alignment of family, school, and community spheres of influence enhances student learning and that discontinuity in these spheres of influence interferes with learning.
- **10(o)** The teacher knows how to contribute to a common culture that supports high expectations for student learning.

Standard 2: Clinical Partnerships and Practice

The provider ensures that effective partnerships and high-quality clinical practice are central to preparation so that candidates develop the knowledge ,skills, and professional dispositions necessary to demonstrate positive impact on all P-12 students' learning and development.

	CAEP Theme Proficiencies -	CAEP Component	InTASC Standard:	Notes
	Diversity (p. 29)		Performances	
Standard 2: Clinical Partnerships and Practice	Incorporating multiple perspectives in content	2.3 The provider works with partners to design clinical experiences of sufficient depth, breadth, diversity, coherence, and duration to ensure that candidates demonstrate their developing effectiveness and positive impact on all students' learning and development. Clinical experiences, including technology-enhanced learning opportunities, are structured to have multiple performance-based assessments at key points within the program to demonstrate candidates' development of the knowledge, skills, and professional dispositions, as delineated in Standard 1, that are associated with a positive impact on the learning and development of all P-12 students.	2(c) The teacher designs instruction to build on learners' prior knowledge and experiences, allowing learners to accelerate as they demonstrate their understandings. 2(d) The teacher brings multiple perspectives to the discussion of content, including attention to learners' personal, family, and community experiences and cultural norms. 4(b) The teacher engages students in learning experiences in the discipline(s) that encourage learners to understand, question, and analyze ideas from diverse perspectives so that they master the content. 5(g) The teacher facilitates learners' ability to develop diverse social and cultural perspectives that expand their understanding of local and global issues and create novel approaches to solving problems.	

Understanding strengths and
needs of diverse learners in
planning and adjusting
instruction

2.3 The provider works with partners to design clinical experiences of sufficient depth, breadth, diversity, coherence, and duration to ensure that candidates demonstrate their developing effectiveness and positive impact on all students' learning and development. Clinical experiences, including technology-enhanced learning opportunities, are structured to have multiple performance-based assessments at key points within the program to demonstrate candidates' development of the knowledge, skills, and professional dispositions, as delineated in Standard 1, that are associated with a positive impact on the learning and development of all P-12 students.

- **1(b)** The teacher creates developmentally appropriate instruction that takes into account individual learners' strengths, interests, and needs and that enables each learner to advance and accelerate his/her learning.
- **1(c)** The teacher collaborates with families, communities, colleagues, and other professionals to promote learner growth and development.
- **2(a)** The teacher designs, adapts, and delivers instruction to address each student's diverse learning strengths and needs and creates opportunities for students to demonstrate their learning in different ways.
- **2(b)** The teacher makes appropriate and timely provisions (e.g., pacing for individual rates of growth, task demands, communication, assessment, and response modes) for individual students with particular learning differences or needs.
- **2(e)** The teacher incorporates tools of language development into planning and instruction, including strategies for making content accessible to English language learners and for evaluating and supporting their development of English proficiency.
- **2(f)** The teacher accesses resources, supports, and specialized assistance and services to meet particular learning differences or needs.
- **8(c)** The teacher collaborates with learners to design and implement relevant learning experiences, identify their strengths, and access family and community resources to develop their areas of interest.
