

Clinical Competency Inventory (CCI ver.3) for Clinical Practice Teacher Candidates

Instructions and Overview

Introduction

This observational instrument has been designed to provide feedback on the progress of individual teaching candidates who are completing their student teaching experience in their teacher preparation program. This performance-based assessment instrument measures key competencies aligned to the 2011 InTASC standards and the edTPA rubrics that are required of all teaching candidates prior to being recommended for certification. This standards-based observational instrument specifies the defining set of competencies that pre-service teachers should demonstrate before being recommended for certification in the State of New Jersey.

Some competencies may not be observable and usually start with the phrase, "Provides evidence of." It is expected that the candidate will bring evidence of these competencies to a conference. It is the teaching candidate's responsibility to bring a professional portfolio and additional artifacts to the final assessment conference.

The form is to be used as a summative assessment at the completion of the student teaching experience, during the last observation. It should be used in conjunction with a more qualitative observational form that is aligned with the CCI and focuses on the quality of the specific lesson being observed. The CCI is meant to be a cumulative assessment of competencies that the supervisor and cooperating teacher have observed throughout the clinical practice. The form should be introduced at the beginning of the clinical practice to guide the development of the teaching candidate and to provide feedback on the candidate's strengths and areas of improvement.

The procedure for using the CCI is as follows:

- 1) At the first visit, the supervisor will review the Observation Form and the CCI with the cooperating teacher.
- 2) At mid-term, the supervisor and cooperating teacher fill in the CCI independently.
- 3) The supervisor will hold a mid-point conference with the teaching candidate to go over the CCI. The cooperating teacher will join this conference to discuss mid-point assessment.
- 4) At the completion of the field placement, the supervisor and cooperating teacher fill in the CCI independently and enter the final assessment.
- 5) At the completion of the clinical practice, the teaching candidate will do a self-assessment and fill in the CCI.

Rating of the Form

The following rating scale will be used to score each candidate:

4: Advanced Proficient (Exemplary Practice)– Consistently demonstrates *all* the skills and behaviors and/or evidence required for each competency outlined in Advanced Proficient for a specific indicator on the CCI.

The teaching candidate shows exemplary practice in: 1) integrating content knowledge with application; 2) lesson planning and implementation of daily instruction; 3) organizational and classroom management skills; 4) using assessment to inform instruction; and 5) adapting instruction to meet the needs of all children.

Recommended point value: 4.0 - 3.5

3: Proficient (Basic Competence) – Consistently demonstrates *most* of the skills and behaviors and/or evidence required for the competencies outlined in Advanced Proficient for a specific indicator on the CCI.

The teaching candidate shows basic competence in: 1) integrating content knowledge with application; 2) lesson planning and implementation of daily instruction; 3) organizational and classroom management skills; 4) using assessment to inform instruction; and 5) adapting instruction to meet the needs of all children.

Recommended point value: 3.4 - 2.75

2: Novice (Limited Competence) – Demonstrates *some* of the skills and behaviors and/or evidence required for the competencies outlined in Advanced Proficient for a specific indicator on the CCI.

The teaching candidate continues to need assistance in: 1) integrating content knowledge with application; 2) lesson planning and implementation of daily instruction; 3) organizational and classroom management skills; 4) using assessment to inform instruction; and 5) adapting instruction to meet the needs of all children.

Recommended point value: 2.74 – 1.5

1: Emergent (Exhibits Difficulty) – Demonstrates *few* of the skills and behaviors required for competencies outlined in Advanced Proficient for a specific indicator on the CCI.

The teaching candidate exhibits difficulty in: 1) integrating content knowledge with application; 2) lesson planning and implementation of daily instruction; 3) organizational and classroom management skills; 4) using assessment to inform instruction; and 5) adapting instruction to meet the needs of all children.

Recommended point value: 1.4 - 0

Not Observed – You cannot use this rating for the Final Assessment. If you did not observe a specific indicator in the classroom, please obtain additional evidence from the clinical intern demonstrating competency in that area. If you have a question or reservation about an indicator, please insert a comment explaining your concerns.

For the Final Assessment, please rate all 38 indicators. Use the following scale to assess the candidate (this scale will not be accurate if you skip any item): Advanced Proficient (4) = 152 points; Proficient (3) = 114 points; Novice (2) = 76 points; Emergent (1) = 38 points; **A TEACHING CANDIDATE NEEDS AT LEAST 105 POINTS (2.75 AVERAGE) TO BE RECOMMENDED FOR CERTIFICATION.**

Please calculate the overall score on the indicators by adding up the total score and dividing that score by the number of indicators (total score ÷ # of indicators you rated).

SHU - CEHS Clinical Competency Inventory (CCI)

The purpose of this form is to provide feedback to the teaching candidate on an observed lesson at the mid-point of clinical practice. It is closely aligned with the Observation and Conference Report and will help guide the development of the candidate. The evaluator should indicate on the form which indicators were observed for the lesson and should write additional comments in the space provided. The teaching candidate can offer other evidence to show competency in categories that were not directly observed in this lesson. The overall scale for each standard should be checked off. In order to pass clinical practice and be recommended for licensure, teacher candidates must score a 2.75 or higher on this form at the final (eighth) observation. It is used at the mid-term to set goals for the teacher candidate for the remainder of the clinical practice.

Evaluator

- Cooperating Teacher
- SHU Field Supervisor
- Candidate Self Reflection

Date of Observation: _____

Please indicate which evaluation you are completing for the student in their clinical experience:

- Midterm
- Final

Supervisor Name:

First Name: _____

Last Name: _____

Cooperating Teacher Name:

First Name: _____

Last Name: _____

Candidate Name:

First Name: _____

Last Name: _____

Candidate Email: (Please enter the candidate's Seton Hall email, e.g. "Elizabeth.Seton@student.shu.edu")

Email Address: _____

Verify Email Address: _____

Candidate Program within Educational Studies:

- ESED/DVSL
- SCED
- SSED
- CEAS/ESED
- CEAS/SCED
- SLMS

If the candidate is SCED, CEAS/SCED, or SCED/SSED, please indicate the specific program:

- English
- Math
- Social Studies
- Science
- Music
- Art
- World Language
- Media/Digital Research

Grade Level (of placement):

- Kindergarten
- 1st Grade
- 2nd Grade
- 3rd Grade
- 4th Grade
- 5th Grade
- 6th Grade
- 7th Grade
- 8th Grade
- High School
- Other: _____

Subject (placement):

- English
- Math
- Social Studies
- Science
- Music
- Art
- French
- Italian
- Spanish
- Media/Digital Research
- Other

Standard #1: Learner Development

The teacher shall understand how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

1.1 The clinical intern designs and implements lessons that are developmentally appropriate so that all learners can learn.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	The clinical intern's lessons: <ul style="list-style-type: none"> ✓ Contain activities that are not at the appropriate developmental level for all learners (they are either too hard or too easy); ✓ Contain objectives that are not written correctly; ✓ Are not cognitively challenging; ✓ Are not aligned to standards. 	The clinical intern's lessons: <ul style="list-style-type: none"> ✓ Contain some objectives and activities that are at the appropriate developmental level for all learners (some are too hard or too easy); ✓ Contain objectives that are not written properly; ✓ Show some effort to differentiate instruction but needs improvement; ✓ Are somewhat aligned to standards. 	The clinical intern's lessons: <ul style="list-style-type: none"> ✓ Contain objectives and activities that are at the appropriate developmental level for all learners (neither too hard or too easy); ✓ Address individual developmental differences in the instructional activities by differentiating instruction; ✓ Are cognitively challenging for all learners; ✓ Are aligned to standards. 	The clinical intern's lessons: <ul style="list-style-type: none"> ✓ Contain objectives and activities that are at the appropriate developmental level for all learners (neither too hard or too easy); ✓ Address individual developmental differences in the instructional activities by differentiating instruction; ✓ Are cognitively challenging for all learners; ✓ Take into account each learner's background knowledge, and builds on his/her strengths and needs. ✓ Are aligned to standards.

1.2 The clinical intern interacts with learners in an appropriate manner with sensitivity to developmental, cultural, linguistic and social differences.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	The clinical intern interacts with learners in a manner that: <ul style="list-style-type: none"> ✓ Needs more sensitivity to cultural and academic differences of students; ✓ Needs to be more aware of verbal and nonverbal messages being sent to students in the classroom. 	The clinical intern interacts with learners in a manner that: <ul style="list-style-type: none"> ✓ Uses academic conversation at times; ✓ Respects cultural differences of most learners; ✓ Tries to establish a supportive environment through verbal and nonverbal interactions, but needs some feedback. 	The clinical intern interacts with learners in a manner that: <ul style="list-style-type: none"> ✓ Encourages academic conversation and accepts linguistic and developmental differences in language development; ✓ Respects cultural differences of all learners; ✓ Respects all learners in the classroom through verbal and nonverbal interactions. 	The clinical intern interacts with learners in a manner that: <ul style="list-style-type: none"> ✓ Accepts developmental differences of all learners in the classroom through supportive discourse and accommodations; ✓ Encourages academic conversation and accepts linguistic and developmental differences in language development; ✓ Respects cultural differences of all learners; ✓ Respects all learners in the classroom through verbal and nonverbal interactions.

Standard #1 (Learner Development) Comments:

Standard #2: Learning Differences

The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

2.1 The clinical intern designs and implements instruction to ensure an inclusive learning environment for all learners.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<p>The clinical intern's lessons:</p> <ul style="list-style-type: none"> ✓ Uses strategies that are not differentiating instruction at all; ✓ Is providing the same strategies for all students and not taking into account learning differences. 	<p>The clinical intern's lessons:</p> <ul style="list-style-type: none"> ✓ Tend to use the same strategy for all students and is not differentiating instruction, except on rare occasions; ✓ Try to support a learning environment that allows all students to succeed, but need to include more accommodations for learners. 	<p>The clinical intern's lessons:</p> <ul style="list-style-type: none"> ✓ Strategies that differentiate the delivery of instruction based on needs of learners; ✓ Assessments that accommodate the needs of all learners; ✓ Strategies that support a learning environment that allows all students to succeed. 	<p>The clinical intern's lessons:</p> <ul style="list-style-type: none"> ✓ Accommodations (adaptations and/or modifications) that are appropriate for an inclusive environment (IEP's, 504's when available and/or appropriate); ✓ Strategies that differentiate the delivery of instruction based on needs of learners; ✓ Assessments that accommodate the needs of all learners; ✓ Strategies that support a learning environment that allows all students to succeed.

2.2 The clinical intern incorporates multicultural content and perspectives into the lesson.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<p>The clinical intern engages in activities that:</p> <ul style="list-style-type: none"> ✓ Are not sensitive to the diversity of students, families, or the surrounding community. ✓ Are devoid of any multicultural content or perspective. 	<p>The clinical intern engages in activities that:</p> <ul style="list-style-type: none"> ✓ Focuses on holidays and peripheral content related to students' cultural backgrounds; ✓ Incorporate students' cultural heritage. 	<p>The clinical intern engages in meaningful lessons that:</p> <ul style="list-style-type: none"> ✓ Reflect the diversity of students, their families, and their communities; ✓ Incorporate students' interests and cultural heritage; ✓ Illustrate and discuss content that addresses social and cultural issues relevant to students' identity; ✓ Establish an inclusive learning community with clear and explicit guidelines and shared expectations. 	<p>The clinical intern engages in meaningful lessons that:</p> <ul style="list-style-type: none"> ✓ Reflect the diversity of students, their families, and their communities; ✓ Incorporate students' interests and cultural heritage; ✓ Illustrate and discuss content that addresses social and cultural issues relevant to students' identity; ✓ Relate content from various perspectives to inform students that history and current events can be seen through multifaceted lens; ✓ Establish an inclusive learning community with clear and explicit guidelines and shared expectations.

2.3 The clinical intern creates a learning community where individual differences are respected and individual needs are met.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<ul style="list-style-type: none"> ✓ The clinical intern is doing most of the talking and not encouraging open interaction and expression; ✓ The clinical intern needs to encourage more active engagement of students and address more issues that are relevant and important to students. 	<ul style="list-style-type: none"> ✓ The clinical intern listens and responds to learners during interactions; ✓ Students should express and discuss ideas and views more frequently; ✓ The clinical intern needs more reinforcement of classroom rules that promote respect for individual differences. 	<ul style="list-style-type: none"> ✓ The clinical intern listens and responds to learners respectfully during interactions; ✓ Students express and discuss ideas and views; ✓ The clinical intern establishes and monitors classroom rules that promote respect for individual differences. 	<ul style="list-style-type: none"> ✓ The clinical intern listens and responds to learners respectfully during interactions; ✓ Students express and discuss ideas and views; ✓ The clinical intern establishes and monitors classroom rules that promote respect for individual differences; ✓ Encourages active engagement of students with relevant issues and fosters collaboration among participants in a group.

2.4 The clinical intern engages in strategies to support learners whose first language is not English.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Engages the learner in one-word responses most of the time; ✓ Does not provide any accommodations to the English language learner; ✓ Struggles to provide academic support to the English language learners. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Needs to engage in academic discussions that involve more than one-word responses; ✓ Occasionally uses strategies like graphic organizers, visual cues, and alternate ways of completing projects to support the learner; ✓ Provides rudimentary support to the learner in language and literacy development. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Supports the learner in language and literacy development; ✓ Encourages the learner to engage in academic discussions that involve more than one-word responses; ✓ Uses strategies like graphic organizers, visual cues, and alternate ways of completing projects to support the learner; ✓ Assesses the learner on content knowledge and not language development. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Provides the learner with vocabulary reinforcement and/or modifications; ✓ Encourages the learner to engage in academic discussions that involve more than one-word responses; ✓ Uses strategies like graphic organizers, visual cues, and alternate ways of completing projects to support the learner; ✓ Assesses the learner on content knowledge and not language development; ✓ Supports the learner in language and literacy development; ✓ Uses the learners' cultural background to contribute to student learning.

2.5 The clinical intern uses appropriate materials that reflect an equitable portrayal of diversity.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<ul style="list-style-type: none"> ✓ The clinical intern uses the textbook predominately as a major resource; ✓ The materials need to be more diverse in representing the students in the class. 	<ul style="list-style-type: none"> ✓ The clinical intern occasionally uses multicultural literature; ✓ The instructional materials (textbooks, articles, on-line sites) reflect an equitable portrayal of diversity including learners with special needs. 	<ul style="list-style-type: none"> ✓ The clinical intern uses multicultural literature to foster a deep appreciation of different cultures; ✓ The instructional materials (textbooks, articles, on-line sites) reflect an equitable portrayal of diversity including learners with special needs; ✓ The materials displayed in the classroom reflect the culture and lives of the learners in the class. 	<ul style="list-style-type: none"> ✓ The clinical intern uses multicultural literature to foster a deep appreciation of different cultures; ✓ The instructional materials (textbooks, articles, on-line sites) reflect an equitable portrayal of diversity including learners with special needs; ✓ The materials displayed in the classroom reflect the culture and lives of the learners in the class; ✓ The clinical intern uses a wide variety of materials on many different reading levels and in many different genres to foster an interest in learning for all students.

Standard #2 (Learning Differences) Comments:

Standard 3: Learning Environment

The teacher works with others (learners, families and colleagues) to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

3.1 The clinical intern demonstrates general warmth, caring and respect towards learners through verbal/nonverbal communication.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Needs to work on listening more carefully to learners; ✓ Needs to work on showing a more caring attitude. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Listens carefully to learners; ✓ Responds respectfully; ✓ Responds neutrally in tone. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Listens carefully to learners; ✓ Responds respectfully; ✓ Gives learners a chance to answer with adequate wait time; ✓ Shows a warmth and caring in tone and actions. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Listens carefully to learners; ✓ Responds respectfully; ✓ Gives learners a chance to answer with adequate wait time; ✓ Encourages academic conversations and use of academic language with students; ✓ Shows warmth and caring in tone and actions.

3.2 The clinical intern uses effective classroom management techniques.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<p>The clinical intern struggles with classroom management techniques and enforcing classroom rules.</p>	<p>The clinical intern manages the class by:</p> <ul style="list-style-type: none"> ✓ Enforcing effective classroom rules; ✓ Engaging in positive and supportive student-teacher interactions 	<p>The clinical intern manages the class by:</p> <ul style="list-style-type: none"> ✓ Enforcing effective classroom rules; ✓ Engaging in positive and supportive student-teacher interactions; ✓ Facilitating effective student-student interactions; ✓ Provides a positive, low-risk learning environment that reveals mutual respect among students. 	<p>The clinical intern manages the class by:</p> <ul style="list-style-type: none"> ✓ Enforcing effective classroom rules; ✓ Implementing smooth transitions; ✓ Engaging in positive and supportive teacher-student interactions; ✓ Facilitating effective student-student interactions; ✓ Effectively implementing a variety of groupings and activities; ✓ Provides a positive, low-risk learning environment that reveals mutual respect among students.

3.3 The clinical intern considers physical space and resources that optimizes learning activities for all learners.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<p>The clinical intern organizes the classroom so that:</p> <ul style="list-style-type: none"> ✓ It does not facilitate collaborative learning or individual learning; ✓ Supplemental resources are not used. 	<p>The clinical intern organizes the classroom so that:</p> <ul style="list-style-type: none"> ✓ It does not facilitate collaborative learning or individual learning; ✓ Supplemental resources (technology, books, materials) are used. 	<p>The clinical intern organizes the classroom effectively so that:</p> <ul style="list-style-type: none"> ✓ Collaborative learning takes place regularly; ✓ He/she oversees all classroom activities; ✓ Space and time is provided for individual learning; ✓ Supplemental resources (technology, books, materials) are used; ✓ Walls are used to enhance learning (bulletin boards, word walls, posters). 	<p>The clinical intern organizes the classroom effectively so that:</p> <ul style="list-style-type: none"> ✓ There is smooth movement of learners around the room; ✓ Collaborative learning takes place regularly; ✓ He/she oversees all classroom activities; ✓ Spaces and time is provided for individual learning; ✓ Supplemental resources (technology, books, materials) are used; ✓ Walls are used to enhance learning (bulletin boards, word walls, posters).

3.4 The clinical intern/learners use(s) instructional time effectively to achieve learning outcomes.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<p>The clinical intern does not use allotted time effectively to implement an effective lesson and assess the learning outcomes.</p>	<p>The clinical intern uses allotted time to:</p> <ul style="list-style-type: none"> ✓ Implement a lesson with an introduction, activities, and summary; ✓ Assess the learning outcomes. 	<p>The clinical intern uses allotted time to:</p> <ul style="list-style-type: none"> ✓ Keep learners on-task; ✓ Minimize time for transitions; ✓ Engage learners in achieving learning outcomes; ✓ Implement an effective lesson with an introduction, activities, and summary; ✓ Assess the learning outcomes; ✓ Monitor and adjust lesson according to formative assessment and time constraints. 	<p>The clinical intern uses allotted time to:</p> <ul style="list-style-type: none"> ✓ Keep learners on-task with cognitively challenging activities; ✓ Minimize time for transitions; ✓ Engage learners in achieving learning outcomes; ✓ Implement an effective lesson with clear and measurable objectives, an introduction, challenging activities, and summary; ✓ Assess the learning outcomes; ✓ Monitor and adjust lesson according to formative assessment and time constraints.

3.5 Learners are actively participating and engaged in the lesson.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	Learners are not engaged in the lesson but are distracted and not paying attention.	Learners are somewhat engaged in the lesson by: <ul style="list-style-type: none"> ✓ Discussing; ✓ Participating; ✓ Raising their hands; ✓ Paying attention at their desks. 	Learners are engaged in the lesson by: <ul style="list-style-type: none"> ✓ Applying the content through hands-on activities; ✓ Discussing; ✓ Actively participating; ✓ Displaying interest and enthusiasm. 	Learners are highly engaged in a model lesson by: <ul style="list-style-type: none"> ✓ Applying the content through hands-on activities; ✓ Discussing; ✓ Actively participating; ✓ Displaying interest and enthusiasm; ✓ Paying close attention and responding in an enthusiastic and interested manner.

3.6 Learners are engaged in positive peer relationships through classroom activities.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	There is very little collaboration taking place in the classroom, which would enhance positive peer relationships.	Learners need to: <ul style="list-style-type: none"> ✓ Collaborate with peers more frequently. ✓ Actively discuss with peers; ✓ Coaching/mentoring a peer. 	Learners are: <ul style="list-style-type: none"> ✓ Collaborating with peers; ✓ Actively discussing with peers; ✓ Coaching/mentoring a peer; ✓ Establishing positive peer interactions. 	Learners are: <ul style="list-style-type: none"> ✓ Collaborating with peers in cognitively challenging and relevant activities; ✓ Actively discussing with peers; ✓ Coaching/mentoring a peer; ✓ Using positive language to support each other; ✓ Establishing positive peer interactions.

Standard #3 (Learning Environment) Comments:

Standard #4: Content Knowledge

The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make these aspects of the discipline accessible and meaningful for learners to assure mastery of the content

4.1 The clinical intern designs and implements lessons that demonstrate knowledge and command of the subject matter.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Does not demonstrate a command of the subject matter; ✓ Has not aligned the lesson with any standards; ✓ Teaches the content out of any meaningful context to help the student understand why it is necessary and important to learn it. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Uses teaching strategies that foster the understanding of key disciplinary concepts; ✓ Demonstrates a rudimentary command of the subject matter; ✓ Incorporates appropriate standard(s) in the lessons. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Relates content to prior student knowledge; ✓ Uses effective explanations of key disciplinary concepts; ✓ Uses teaching strategies that foster the understanding of key disciplinary concepts; ✓ Demonstrates a deep and broad command of the subject matter; ✓ Incorporates the appropriate standard(s) (CCSS, NJCCCS and/or professional standards) in the lessons; ✓ Makes the content relevant to everyday life and experiences of the learner. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Relates content to prior student knowledge; ✓ Uses effective explanations of key disciplinary concepts; ✓ Uses teaching strategies that foster the understanding of key disciplinary concepts; ✓ Demonstrates a deep and broad command of the subject matter; ✓ Incorporates the appropriate standard(s) (CCSS, NJCCCS and/or professional standards) in the lessons; ✓ Teaches the disciplinary vocabulary words associated with the content (Tier 3 words) ✓ Makes the content relevant to everyday life and experiences of the learner.

4.2 Learners demonstrate development of critical thinking and problem solving within the content area.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<ul style="list-style-type: none"> ✓ Learners need to develop their development of critical thinking and problem solving skills. ✓ Activities are very low level and do not push the students to problem solve or think critically. 	<p>Learners need to develop further their critical thinking and problem solving skills within the content area:</p> <ul style="list-style-type: none"> ✓ More classroom activities and strategies need to engage them in critical thinking and problem solving in the content area; ✓ Written and oral responses are too low level and need to encourage learners to think critically and solve problems. 	<p>Learners demonstrate the development of their critical thinking and problem solving skills within the content area through:</p> <ul style="list-style-type: none"> ✓ Responses to higher order thinking questions raised by the clinical intern; ✓ Classroom activities and strategies that engage them in critical thinking and problem solving in the content area; ✓ Responses written and oral to critical thinking and problem solving assignments. 	<p>Learners demonstrate the development of their critical thinking and problem solving skills within the content area through:</p> <ul style="list-style-type: none"> ✓ Responses to higher order thinking questions raised by the clinical intern; ✓ Questions generated by the learners that demonstrate critical thinking skills; ✓ Classroom activities and strategies that engage them in critical thinking and problem solving in the content area; ✓ Their ability to apply key concepts in the discipline to new disciplinary content; ✓ Responses written and oral to critical thinking and problem solving assignments.

Standard #4 (Content Knowledge) Comments:

Standard #5: Application of Content

The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

5.1 The clinical intern implements interdisciplinary learning experiences that allow learners to integrate knowledge from several content areas.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	The clinical intern focuses solely on one content area with no connection to other disciplines, and does not provide any opportunity for learners to apply concepts and ideas.	The clinical intern's lessons: <ul style="list-style-type: none"> ✓ Tend to focus on one content area only with little connection to other disciplines; ✓ Have learners engaged in applying concepts and ideas from mainly one content area. 	The clinical intern implements learning experiences that: <ul style="list-style-type: none"> ✓ Connect the content to concepts, issues and relevant ideas from other content area(s); ✓ Have learners actively engaged in applying concepts and ideas from at least one other content area. 	The clinical intern implements learning experiences that: <ul style="list-style-type: none"> ✓ Connect the content to concepts, issues and relevant ideas from other content area(s); ✓ Have learners actively engaged in applying concepts and ideas from several content areas; ✓ Provide opportunities for learners to use interdisciplinary concepts to help solve problems.

5.2 Learners apply content knowledge to solve real world problems through collaboration.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<ul style="list-style-type: none"> ✓ Learners are working exclusively from a textbook, worksheet, or answering lower level questions. ✓ There is no group collaboration nor are learners solving real world problems. 	<ul style="list-style-type: none"> ✓ Learners are working predominantly from a textbook or worksheets and occasionally working collaboratively in a group. ✓ There is little evidence that they are trying to solve real world problems. 	Learners are actively involved in: <ul style="list-style-type: none"> ✓ Exploring and/or researching different alternatives to solving a problem; ✓ Working collaboratively in a group; ✓ Applying content knowledge to solving a problem. 	Learners are actively involved in: <ul style="list-style-type: none"> ✓ Exploring and/or researching different alternatives to solving a problem; ✓ Working collaboratively in a group; ✓ Applying content knowledge to solving a problem; ✓ Using critical thinking and creativity to generate new ideas and novel approaches to solving a problem.

5.3 Learners use technological tools and current resources for content research.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	Learners are only using their textbooks to explore the content. There is little technology integration or use of varied resources if technology is not available.	Learners are using a few different resources such as laptops and books for content research. They mainly use their textbooks as the primary resource.	Learners are: <ul style="list-style-type: none"> ✓ Using resources such as books, printed material, laptops, apps, iPads, and websites to help solve a problem; ✓ Engaged in discovering new resources available for the exploration/research of the content; ✓ Using current events and/or resources available online for exploration/research of the content. 	Learners are: <ul style="list-style-type: none"> ✓ Using resources such as books, printed material, laptops, apps, iPads, and websites to help solve a problem; ✓ Engaged in discovering new resources available for the exploration/research of the content; ✓ Using current events and/or resources available online for exploration/research of the content. ✓ Using appropriate Web 2.0 tools and applications to explore the content.

5.4 Learners apply their content knowledge through a variety of forms such as oral, written, and/or technological presentations.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	Learners apply their content knowledge through writing and quizzes or tests. There is little variety in terms of how they present their knowledge.	Learners predominantly apply their content knowledge through written reports, oral presentations and tests. More varied presentations with use of technology, if available, is recommended.	Learners apply their content knowledge by: <ul style="list-style-type: none"> ✓ Telling a story, recounting an experience or writing on a topic, with appropriate sequencing of ideas and using appropriate facts and details; ✓ Engaging in collaborative discussions; ✓ Presenting their ideas/research in variety of ways including drawings, hands-on projects, multimedia presentations, group presentations. 	Learners apply their content knowledge by: <ul style="list-style-type: none"> ✓ Telling a story, recounting an experience or reporting on a topic, with appropriate sequencing of ideas and using appropriate facts and details; ✓ Engaging in collaborative discussions; ✓ Presenting their ideas/research in a variety of ways including drawings, hands-on projects, multimedia presentations, group presentations; ✓ Using solid research and content knowledge that is drawn from a variety of texts.

5.5 Learners are engaged in literacy activities within content areas.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	Learners are using their textbook only and using it as the primary source for learning the content. They are not being taught about how to comprehend informational text nor how to draw evidence from the text to support answers.	Learners are mostly reading the same textbook and a few supplemental resources. They are writing essays that are based on textbook readings and some outside sources. They are learning the vocabulary words from the textbook and writing essays about topics from the textbook.	Learners are engaged in: <ul style="list-style-type: none"> ✓ Reading a variety of informational texts; ✓ Comparing multiple sources of texts on the same theme and drawing conclusions; ✓ Using comprehension strategies such as questioning, text structure, and graphic organizers to help make meaning; ✓ Writing about the content area using evidence from the text to support ideas; ✓ Learning vocabulary (Tier 1, 2, and 3 words); ✓ Listening to others' research and/or presentations. 	Learners are engaged in: <ul style="list-style-type: none"> ✓ Reading a variety of informational texts and trade books to solve problems; ✓ Reading a variety of books on their own reading level; ✓ Using comprehension strategies such as questioning, text structure, and graphic organizers to help make meaning; ✓ Compare multiple sources of texts on the same theme and drawing conclusions; ✓ Writing about the content area using evidence from the text to support ideas; ✓ Learning vocabulary (Tier 1, 2, and 3 words); ✓ Listening to others' research and/or presentations and commenting on it.

5.6 Learners are engaged in activities that promote and value the development of quantitative reasoning within content areas.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	Learners are engaged in quantitative reasoning in mathematics lessons only. There is not integration into any other content area.	Learners use quantitative reasoning occasionally to explore a content area, especially science. Little effort is made to have learners explore quantitative reasoning in other fields, such as English/Language Arts or Social Studies.	Learners are engaged in: <ul style="list-style-type: none"> ✓ Interpreting charts and graphs; ✓ Using mathematics to solve problems; ✓ Exploring quantitative reasoning when reading a variety of resources; ✓ Discussing the value of quantitative reasoning within the content areas, including English/Language Arts. 	Learners are engaged in: <ul style="list-style-type: none"> ✓ Interpreting charts and graphs; ✓ Using mathematics to solve problems; ✓ Applying mathematical modeling/reasoning to explore the content area; ✓ Exploring quantitative reasoning when reading a variety of resources; ✓ Discussing the value of quantitative reasoning within the content areas, including English/Language Arts.

Standard #5 (Application of Content) Comments:

Standard #6: Assessment

The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

6.1 The clinical intern designs appropriate formative and summative assessments that are aligned with learning objectives.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	The lesson plans contain a very general method of assessment that tends to be predominantly quizzes and tests.	The lesson plans contain: <ul style="list-style-type: none"> ✓ A general assessment to evaluate the students; ✓ General rubrics, which need more specific criteria and alignment with the objectives/outcomes. ✓ A few formative assessments to monitor learners' progress. 	The lesson plans contain: <ul style="list-style-type: none"> ✓ An assessment to evaluate each objective; ✓ A rubric that is designed to measure the objectives; ✓ Formative assessments that are built into the lesson to monitor learners' progress; ✓ Homework, assignments, or quizzes/tests to assess; ✓ A benchmark for measuring achievement. 	The lesson plans contain: <ul style="list-style-type: none"> ✓ A clear assessment strategy for how each objective will be evaluated; ✓ Rubrics and/or criteria that are designed specifically for each objective; ✓ Formative assessments that are built into the lesson to monitor learners' progress; ✓ A measure or method of collecting data for each objective; ✓ A benchmark for measuring achievement for each objective.

6.2 The clinical intern uses assessment to differentiate instruction.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	The clinical intern implements poorly designed assessments that do not align with the objectives nor differentiate base on any assessment data.	The clinical intern: <ul style="list-style-type: none"> ✓ Administers formative assessments occasionally; ✓ Sets instructional benchmarks that learners must meet; ✓ Does rudimentary analysis of the data; ✓ Does not modify the unit of study to meet all learners' needs. 	The clinical intern: <ul style="list-style-type: none"> ✓ Uses formative assessments; ✓ Sets instructional benchmarks that learners must meet; ✓ Analyzes assessment data to determine what students need further instruction and which need to move on; ✓ Uses assessment data to design and implement instruction based on individual needs; ✓ Attempts to differentiate instruction based on the analysis of assessment data. 	The clinical intern: <ul style="list-style-type: none"> ✓ Uses formative assessments continuously; ✓ Sets instructional benchmarks that learners must meet; ✓ Analyzes assessment data to determine what students did right and wrong related to conceptual understandings and procedural fluency; ✓ Uses assessment data to design and implement instruction based on individual needs; ✓ Uses evidence from student work samples to identify specific areas that the student needs to address.

6.3 The clinical intern provides meaningful and specific feedback to learners on their learning.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	The clinical intern provides minimal feedback to the students.	The clinical intern: <ul style="list-style-type: none"> ✓ Provides feedback to learners in a positive manner; ✓ Works with learners to help them understand their own performance. 	The clinical intern: <ul style="list-style-type: none"> ✓ Uses assessment data to provide feedback to learners in a positive manner; ✓ Works with learners to help them understand their own performance, and, if possible, establish their own learning goals; ✓ Provides feedback to students on a continual basis. 	The clinical intern: <ul style="list-style-type: none"> ✓ Uses assessment data to provide feedback to learners in a positive manner; ✓ Targets the feedback on specific objectives to help increase achievement; ✓ Works with learners to help them understand their own performance, and, if possible, establish their own learning goals; ✓ Provides continuous feedback to learners regarding their future learning goals.

Standard #6 (Assessment) Comments:

Standard #7: Planning for Instruction

The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

7.1 The clinical intern selects a variety of appropriate instructional materials and resources to meet the needs of all learners.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	The textbook is used as the only source of material.	The instructional materials and resources used in the lessons rely predominantly on the textbook and a few supplemental sources of material.	The instructional materials and resources used in the lessons: <ul style="list-style-type: none"> ✓ Are well chosen to meet the lesson objectives. ✓ Meet the needs of all learners including struggling readers; ✓ Are at appropriate reading levels so that learners are reading different levels of material; ✓ Are a rich variety (print, video, technology, primary sources, manipulatives) other than just the textbook; ✓ Are chosen to develop meaningful and deep learning of content. 	The instructional materials and resources used in the lessons: <ul style="list-style-type: none"> ✓ Are well chosen to meet the lesson objectives. ✓ Meet the needs of all learners including struggling readers; ✓ Are at appropriate reading levels so that learners are reading different levels of material; ✓ Are a rich variety (print, video, technology, primary sources, manipulatives) other than just the textbook; ✓ Are chosen to develop meaningful and deep learning of the content.

7.2 The clinical intern integrates technology into the lesson plan to promote effective learning for all learners.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	There is little or no technology integration in the lessons.	Technology use is predominantly PowerPoint presentations and students are not engaged in using the technology.	Technology use: <ul style="list-style-type: none"> ✓ Promotes meaningful learning on the part of the learners; ✓ Involves the learners who are engaged in using the technology; ✓ Is integral to the learning activities; ✓ Provides interest and meaning to the learning activities. 	Technology use: <ul style="list-style-type: none"> ✓ Promotes meaningful learning on the part of the learners; ✓ Involves the learners who are engaged in using the technology; ✓ Is integral to the learning activities; ✓ Provides interest and meaning to the learning activities; ✓ Uses Web 2.0 tools and resources to enhance the lesson and make the content meaningful.

7.3 The clinical intern collaborates with others to support student learning (e.g. other grade level teachers, Special Education teacher, ESL teacher, other specialists, community organizations)

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<p>The clinical intern has not collaborated with others to support student learning. Lessons address the whole class with no differentiated activities to address the needs of students.</p>	<p>The clinical intern shows minimal evidence of developing lessons in collaboration with other teachers/specialists and lessons have minimal differentiated activities addressing the needs of all students.</p>	<ul style="list-style-type: none"> ✓ The clinical intern shows evidence of developing lessons in collaboration with other teachers and/or specialists ✓ The lesson is based on differentiated activities addressing the needs of all students; ✓ The clinical intern shows evidence of using knowledge of individual differences in the classroom from discussions with the cooperating teacher 	<ul style="list-style-type: none"> ✓ The clinical intern shows evidence of developing lessons in collaboration with other teachers and/or specialists; ✓ The lesson is based on differentiated activities addressing the needs of all students; ✓ The clinical intern shows evidence of using knowledge of individual differences from an IEP or 504 plan, when appropriate. ✓ The clinical intern co-teaches with the collaboration and support of another teacher or specialist.

7.4 The clinical intern designs and implements effective lessons that are well organized, and follow a carefully sequenced development of high level student learning.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<p>The lessons are not effectively organized and missing several components of a well-constructed lesson plan.</p>	<p>The lessons are not well organized and need a more carefully sequenced development. The lessons do not contain all the elements of a well-constructed lesson plan, missing one of the following: a solid introduction with a motivating hook, a procedure with meaningful learning activities, a good conclusion, and/or assessment of the objectives.</p>	<p>The lessons contain:</p> <ul style="list-style-type: none"> ✓ Clear and appropriately written objectives that are aligned to standards; ✓ A well-constructed introduction including a motivating hook and development of background knowledge; ✓ A solid procedure including activities that engage the learner in meaningful learning; ✓ A solid conclusion including a summary and wrap-up of concepts; ✓ An assessment of what was learned including the collection of data (quiz results, a rubric score, a checklist score). 	<p>The lessons contain:</p> <ul style="list-style-type: none"> ✓ Appropriately written objectives aligned to standards; ✓ A well-constructed introduction including a motivating hook and development of background knowledge; ✓ A solid procedure that engages the learner in meaningful and cognitively challenging activities; ✓ A solid conclusion where learners draw conclusions from the material and the clinical intern reviews key concepts; ✓ An assessment of what was learned including the collection of data (quiz results, a rubric score, a checklist score).

7.5 The clinical intern's unit has lessons that build on each other to support learning of the essential strategy with clear connections to skills.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<p>The unit:</p> <ul style="list-style-type: none"> ✓ Is not well sequenced; ✓ Needs more definite connection to skills; ✓ Is not developmentally appropriate for the target audience. 	<p>The unit:</p> <ul style="list-style-type: none"> ✓ Is out of balance in terms of sequence and development of content, skills, and knowledge; ✓ Needs more definite connection to skills; ✓ Is developmentally appropriate for the target audience. 	<p>The unit contains:</p> <ul style="list-style-type: none"> ✓ A somewhat organized and sequential development of content, skills and knowledge to support student learning; ✓ Connections to skills; ✓ Is developmentally appropriate for the target audience; ✓ Addresses students' prior knowledge. 	<p>The unit contains:</p> <ul style="list-style-type: none"> ✓ A clearly organized and sequential development of content, skills and knowledge to support student learning; ✓ Clear connections to skills; ✓ Is developmentally appropriate for the target audience; ✓ Builds on students' prior knowledge and prerequisite skills and knowledge.

Standard #7 (Planning for Instruction) Comments:

Standard #8: Instructional Strategies

The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

8.1 The clinical intern uses effective questions to facilitate deep understanding of content (i.e., higher order thinking).

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	The clinical intern does not ask enough questions throughout the lesson and the questions that are posed are simple recall questions.	The clinical intern asks questions throughout the lessons that: <ul style="list-style-type: none"> ✓ Often are "yes" or "no" questions ✓ Ask students about vocabulary words; ✓ Do not use correct academic language for the discipline. 	The clinical intern models and uses a variety of questions throughout the lessons that: <ul style="list-style-type: none"> ✓ Challenge students cognitively (why, what if, and how questions); ✓ Advance high-level thinking and discourse; ✓ Ask students about vocabulary words; ✓ Use appropriate academic language for the discipline. 	The clinical intern models and uses a variety of questions throughout the lessons that: <ul style="list-style-type: none"> ✓ Challenge students cognitively (why, what if, and how questions); ✓ Advance high-level thinking and complex discourse; ✓ Address how the text works (asks questions about text structure, author's purpose, writing style, theme, use of language, etc.) ✓ Ask students about vocabulary, especially Tier 2 and 3 words; ✓ Use appropriate academic language for the discipline.

8.2 The clinical intern varies his/her role in the instructional process in relation to the content (e.g., instructor, facilitator, coach, participant).

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	The clinical intern engages in direct instruction only without varying his/her role during the lesson.	The clinical intern engages in only a few different teacher-student interactions, with the predominant role being direct instruction to whole group.	The clinical intern engages in a variety of instructional activities that require different teacher-student interactions, such as: <ul style="list-style-type: none"> ✓ Direct instruction to full class or small group; ✓ Facilitator and/or coach to small groups or individual students; ✓ Participant during student presentations. 	The clinical intern engages in a variety of instructional activities that require different teacher-student interactions, such as: <ul style="list-style-type: none"> ✓ Direct instruction to full class or small group; ✓ Facilitator and/or coach to small groups or individual students; ✓ Model for demonstrating new skills, processes; ✓ Participant during student presentations.

8.3 The clinical intern models meta-cognitive processes to support comprehension of content (think alouds, questioning).

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	The clinical intern does not model any strategy or skill before having the learners apply it.	The clinical intern occasionally models a strategy or skill and does a brief think aloud.	The clinical intern uses the following meta-cognitive strategies to develop deeper understanding of text/content: <ul style="list-style-type: none"> ✓ Models how to apply a specific strategy/skill before having students practice or apply it; ✓ Uses Think alouds to show his/her own thought processes when using the strategy/skill. 	The clinical intern uses the following meta-cognitive strategies to develop deeper understanding of text/content: <ul style="list-style-type: none"> ✓ Models how to apply a specific strategy/skill before having students practice or apply it; ✓ Uses Think alouds to show his/her own thought processes when using the strategy/skill; ✓ Asks learners to think about and explain the strategies they are using to understand text and/or content.

Standard #8 (Instructional Strategies) Comments:

Standard #9: Professional Learning and Ethical Practice

The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

9.1 The clinical intern provides evidence of reflection on improvement of professional practice in content area(s) and pedagogy.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	The clinical intern does not provide a reflection on improvement of professional practice.	The clinical intern provides a brief reflection on: <ul style="list-style-type: none"> ✓ How the lesson can be improved; ✓ Changes to teacher practice that are superficially related to student learning needs; ✓ A few recommendations for future growth. 	The clinical intern reflects on: <ul style="list-style-type: none"> ✓ How the lesson can be improved; ✓ Recommendations for future improvement related to standards; ✓ Proposes changes to teacher practice that are related to student learning needs; ✓ Examples of how she/he considered students' needs, interests, and skills. 	The clinical intern reflects on: <ul style="list-style-type: none"> ✓ How the lesson can be improved; ✓ Specific recommendations for future improvement related to standards; ✓ Changes that address students' collective learning needs related to the central focus of a unit using principles from research and/or theory. ✓ Examples of how she/he considered students' needs, interests, and skills.

9.2 The clinical intern provides evidence of maintaining and analyzing accurate student records.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	The clinical intern needs help in maintaining and analyzing accurate student records.	The clinical intern provides evidence of: <ul style="list-style-type: none"> ✓ A grade book with students' grades; ✓ Records that are somewhat organized, and current; ✓ Examples of tests used for assessment. 	The clinical intern provides evidence of: <ul style="list-style-type: none"> ✓ Spreadsheet(s) with students' assessment scores; ✓ Analysis of data; ✓ District policies regarding record keeping; ✓ Records that are organized, current and accessible; ✓ Examples of rubrics used for assessment. 	The clinical intern provides evidence of: <ul style="list-style-type: none"> ✓ Spreadsheet(s) with students' assessment scores; ✓ Analysis of data; ✓ District policies regarding record keeping; ✓ Records that are organized, current and accessible; ✓ Examples of rubrics used for assessment; ✓ Feedback provided to students and parents regarding student growth and achievement.

9.3 The clinical intern exhibits appropriate personal and professional behaviors (e.g. appropriate dress, language and interaction with school personnel, peers and learners).

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<p>The clinical intern needs improvement in one or more of the following:</p> <ul style="list-style-type: none"> ✓ Adheres to school professional code of conduct; ✓ Maintains a calm demeanor even when under stress; ✓ Dresses professionally; ✓ Is reliable, punctual, and meets deadlines; ✓ Communicates with colleagues in a professional manner; ✓ Implements feedback and suggestions to improve practice. 	<p>The clinical intern usually:</p> <ul style="list-style-type: none"> ✓ Adheres to school professional code of conduct; ✓ Maintains a calm demeanor most of the times; ✓ Dresses professionally; ✓ Is reliable, punctual, and meets most deadlines; ✓ Implements some of the feedback and suggestions to improve practice. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Adheres to school professional code of conduct; ✓ Maintains a calm demeanor even when under stress; ✓ Dresses professionally; ✓ Is reliable, punctual, and meets deadlines; ✓ Communicates with colleagues in a professional manner; ✓ Implements feedback and suggestions to improve practice. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Adheres to school professional code of conduct; ✓ Maintains a calm and collected demeanor even when under stress; ✓ Dresses professionally; ✓ Is reliable, punctual, and meets deadlines; ✓ Communicates with colleagues in a professional manner; ✓ Poses and listens to constructive suggestions to enhance the teaching and learning process; ✓ Implements feedback and suggestions to improve practice.

9.4 The clinical intern demonstrates effective reading, writing, speaking, mathematics, and technology skills required of a professional.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	<p>The clinical intern needs to improve in one or more of the following: reading, writing, speaking mathematics, or technology skills.</p>	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Writes in communication that usually has some spelling and grammatical errors; ✓ Speaks using standard English, but may have some language problems; ✓ Needs to use mathematics to analyze student achievement; ✓ Needs to make more effective use of technology. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Writes in clear, well-constructed communication that is free of spelling and grammatical errors; ✓ Speaks clearly, using standard English; ✓ Uses mathematics effectively to analyze student achievement and for other tasks; ✓ Makes use of technology which may include smart boards, computer, Internet, digital camera, digital video, tablets, and other technological tools in planning and implementing lessons. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> ✓ Writes in clear, well-constructed communication that is free of spelling and grammatical errors; ✓ Writes in an effective manner that is a model of professionalism; ✓ Speaks clearly and articulately in a manner that is professional and intelligent; ✓ Uses mathematics effectively to analyze student achievement and for other tasks; ✓ Makes effective use of technology in planning and implementing lessons, which includes many different applications including smart boards, computer, Internet, digital camera, digital video, tablets.

Standard #9 (Professional Learning and Ethical Practice) Comments:

Standard #10: Leadership and Collaboration

The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

10.1 The clinical intern provides evidence of contributing to school and/or district by voluntarily offering assistance, and participating in school district events, projects, extra-curricular activities.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	The clinical intern provides minimal evidence of contributing to the school and/or district.	The clinical intern provides evidence of one of the below: <ul style="list-style-type: none"> ✓ Participating in professional in-service training; ✓ Participating in school activities such as plays, concerts, trips, sports, and celebrations; ✓ Attending parent-conference meetings, PTA meetings or faculty meetings. 	The clinical intern provides evidence of: <ul style="list-style-type: none"> ✓ Participating in professional in-service training, school district meetings, conferences, and workshops; ✓ Participating in school activities such as plays, concerts, trips, sports, and celebrations; ✓ Attending parent-conference meetings, PTA meetings or faculty meetings. 	The clinical intern provides evidence of: <ul style="list-style-type: none"> ✓ Actively participating in professional in-service training, school district meetings, conferences, and workshops; ✓ Providing assistance to learners through tutoring before or after school; ✓ Participating in school activities such as plays, concerts, trips, sports, and celebrations; ✓ Attending parent-conference meetings, faculty meetings, PTA meetings and district and school events.

Standard #10 (Leadership and Collaboration) Comments:

Standard #11: Professional Responsibility

Teachers shall act in accordance with legal and ethical responsibilities and shall use integrity and fairness to promote the success of all students.

11.1 Fosters and maintains a classroom environment which protects students from sexually, physically, verbally, or emotionally harassing behavior by acting in a sound and professionally responsible manner.

Not Observed	Emergent	Novice	Proficient	Advanced Proficient
	The clinical intern did not foster and maintain a classroom environment by acting in a professionally responsible manner.	The clinical intern needs to improve in one of the following: <ul style="list-style-type: none"> ✓ Following the school's professional code of conduct; ✓ Consistently adhering to school and district policies; ✓ Maintaining professional relationships with students and colleagues; ✓ Acting in compliance with school board policies for students and teachers; ✓ Always acting in a sound and professionally responsible manner. 	The clinical intern acts in a professionally responsible manner by: <ul style="list-style-type: none"> ✓ Following the school's professional code of conduct; ✓ Consistently adhering to school and district policies; ✓ Maintaining professional relationships with students and colleagues; ✓ Acting in compliance with school board policies for students and teachers. 	The clinical intern acts in a professionally responsible manner by: <ul style="list-style-type: none"> ✓ Following the school's professional code of conduct; ✓ Consistently adhering to school and district policies; ✓ Maintaining professional relationships with students and colleagues; ✓ Acting in compliance with school board policies for students and teachers; ✓ Always acting in a sound and professionally responsible manner.
