

As part of the public awareness campaign on
“Love and Forgiveness in Governance”

We invite you to join us for a movie screening and discussion
about forgiveness and reconciliation:

When **Enemies** Turn To **Brothers**

Within the Eye of the Storm follows the stories of Bassam, a Palestinian and Rami, an Israeli, who both lost a daughter to conflict. The film shares their personal journeys of finding forgiveness, their friendship, and their work to build peace in their communities. "They can't erase the past, but they will fight for a better future TOGETHER."
