

Installing and Using LibKey Nomad

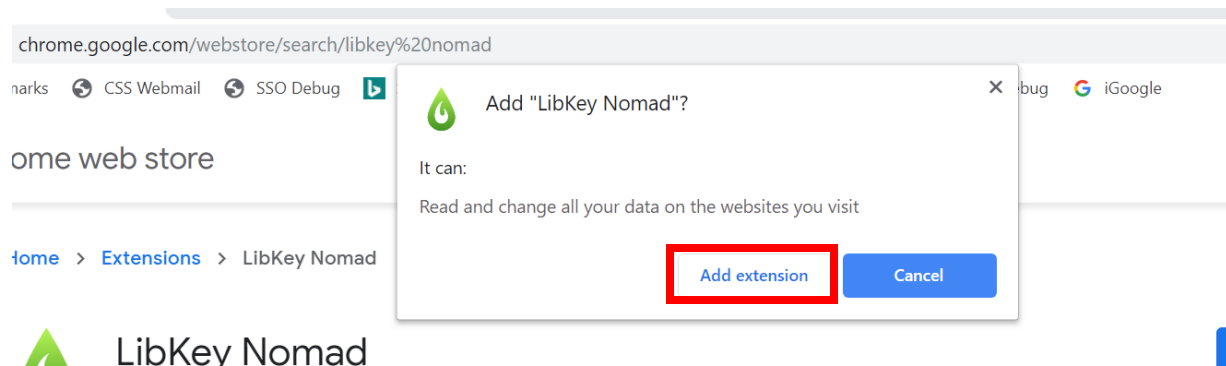

LibKey Nomad is a **Chrome Browser extension** that will identify and provide single click access to SHU Library content from publisher websites, PubMed, Wikipedia, Google Scholar and more.

To install:

- Go to the Chrome store by searching “Chrome extension store” in Google OR <https://chrome.google.com/webstore/category/extensions>
- Search “LibKey Nomad”
- Click “Add to Chrome”

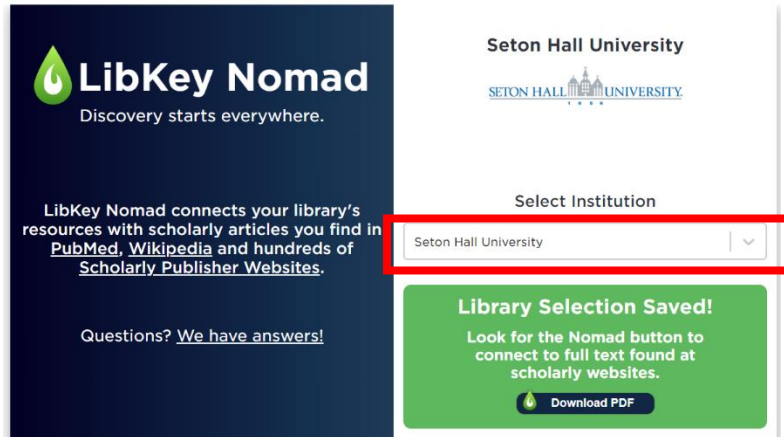

- When the pop-up box appears, click “Add extension”

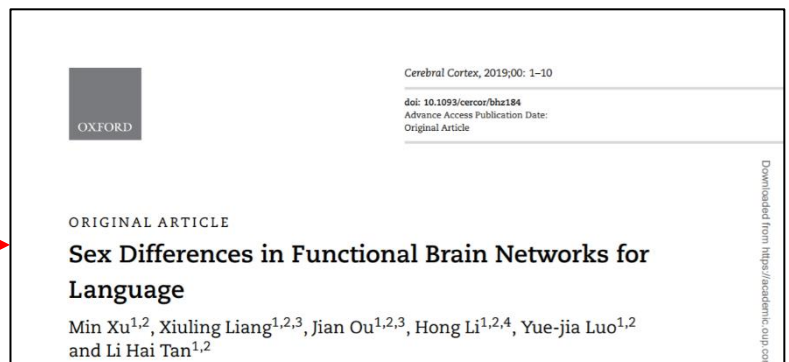

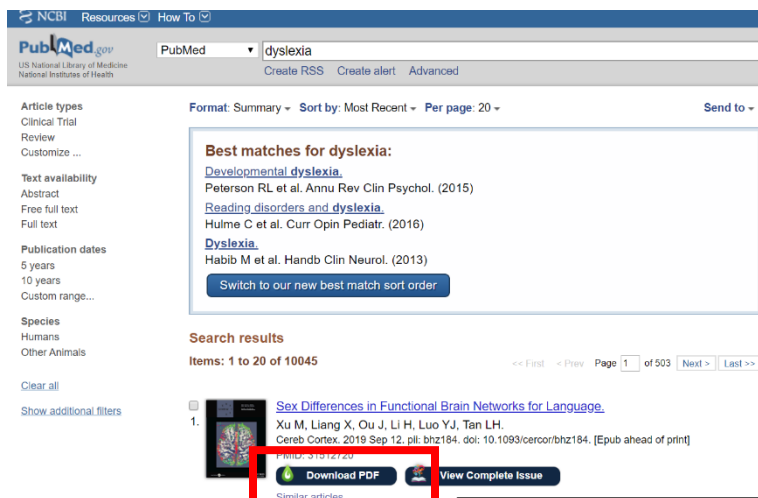

Installing and Using LibKey Nomad

- To activate LibKey Nomad, you must find and select “Seton Hall University.”
- You’re done!

Now, when you search websites like PubMed, Google Scholar and others, you will have one-click access to articles from SHU Libraries - just by clicking the LibKey Nomad “Download PDF” button next to any supported citation.
