

Ann & Robert H. Lurie Children's Hospital of Chicago is offering a one-year postgraduate Administrative Fellowship Program for students graduating in the 2016-2017 school year.

Lurie Children's is a free-standing pediatric medical center located in Chicago, Illinois. The hospital is aligned with 1,100 pediatric specialists focusing on more than 70 specialties in 18 locations.

The postgraduate fellowship program is designed to specifically offer a focus on pediatric healthcare issues.

The objectives of the fellowship include

- Postgraduate training, experiential learning and professional growth
- Contribution to the organization through specific assignments and responsibilities
- Development of a mentor relationship with two senior leaders, the Chief Operating Officer and Chief Clinical Excellence Officer, offering support and guidance for professional development and career advancement

The administrative fellowship is a project-based program which allows the fellow the opportunity to gain exposure to all facets of the organization. The administrative fellow works closely with the senior leadership team of the hospital on projects that address operational and strategic initiatives. The project-based structure allows the fellow to tailor the experience to their interests while supporting the mission of Lurie Children's. Along with project work, the fellow attends leadership and board meetings and is encouraged to supplement their experience with additional meetings, shadowing and partaking in other activities across the hospital. Lurie Children's is a pediatric healthcare leader committed to providing unsurpassed healthcare for children and educating future healthcare leaders. Our Administrative Fellowship Program fulfills that commitment by providing analytical, financial and leadership training to diverse, emerging healthcare leaders in a dynamic environment where kids come first.
