

Nokia N-97 :: Faculty email setup

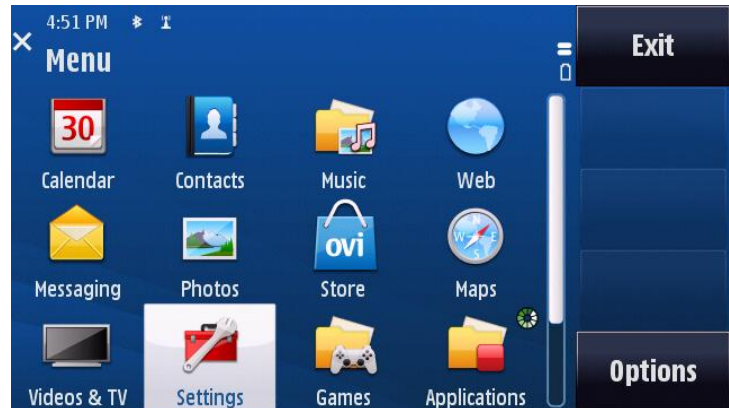

In order to setup your SHU email, you must first connect to the Seton Hall Wireless network via the procedure outlined below.

Nokia N-97 :: On-Campus Internet Connection

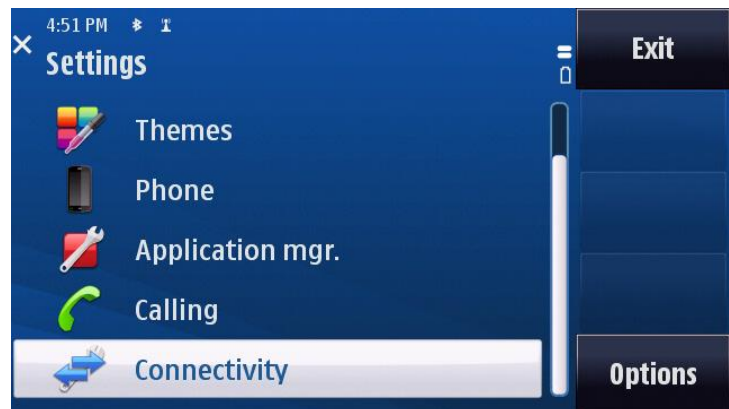

1. Start at the Home Screen.

2. Press the Silver Menu button, then select **Settings**

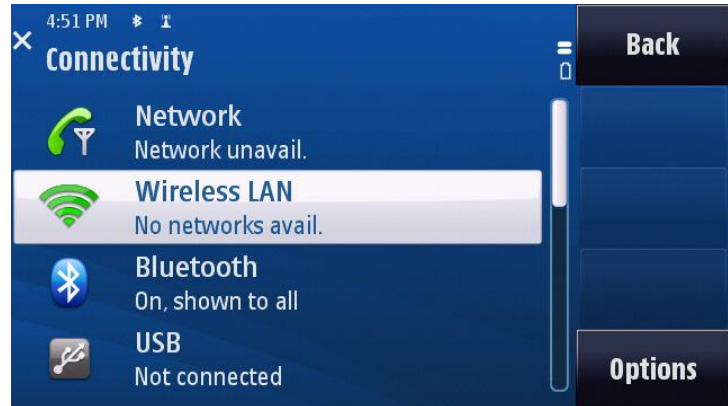

3. Scroll down and select **Connectivity**

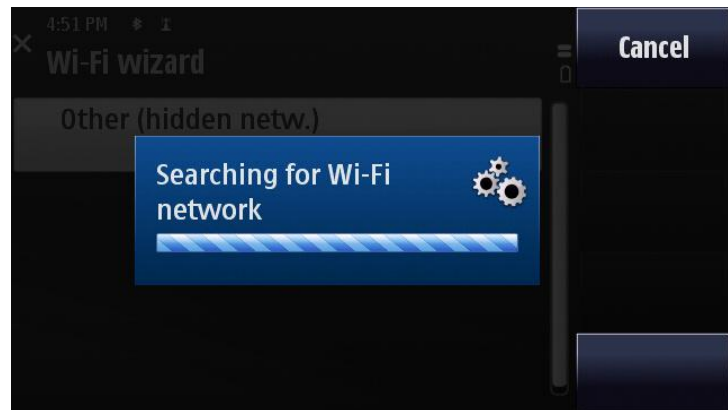

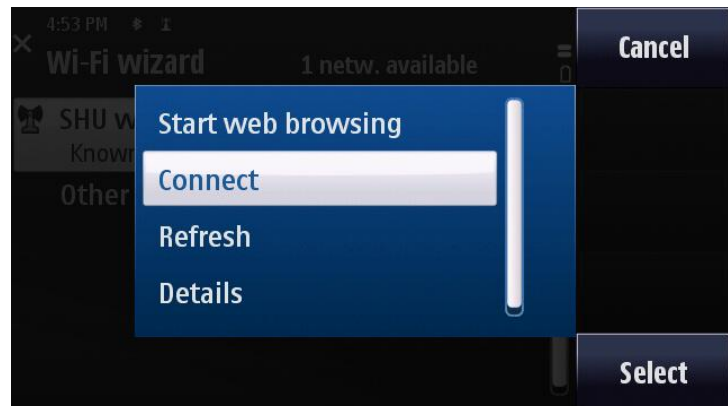

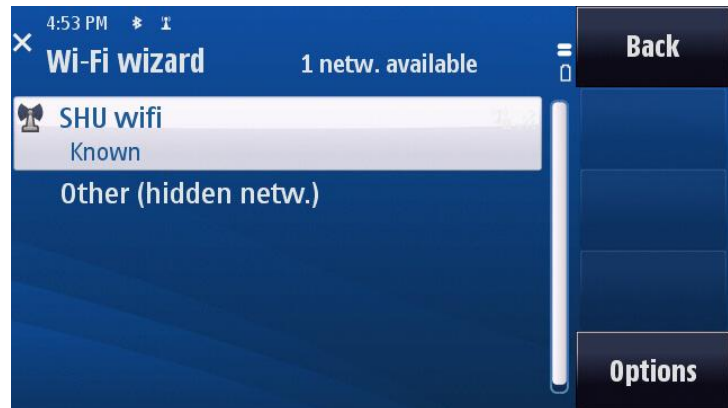

4. Scroll down and select **Wireless LAN**

5. Select **SHU wifi**

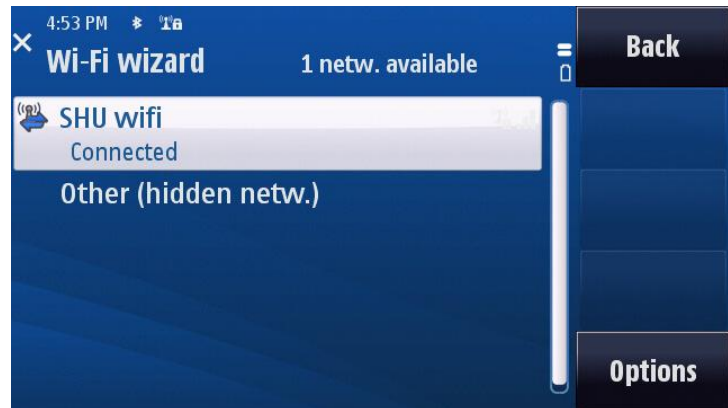

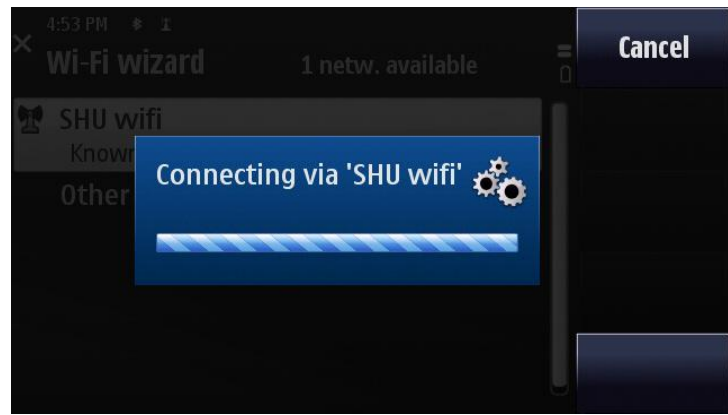

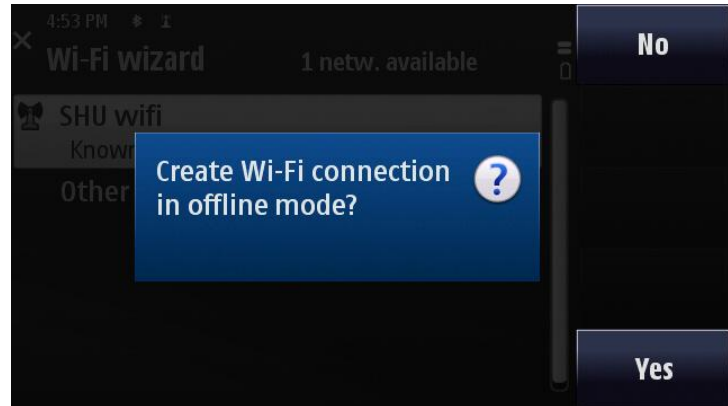

6. Select **Connect**

- 7. When prompted to Create Wi-Fi connection in offline mode? Select **Yes**

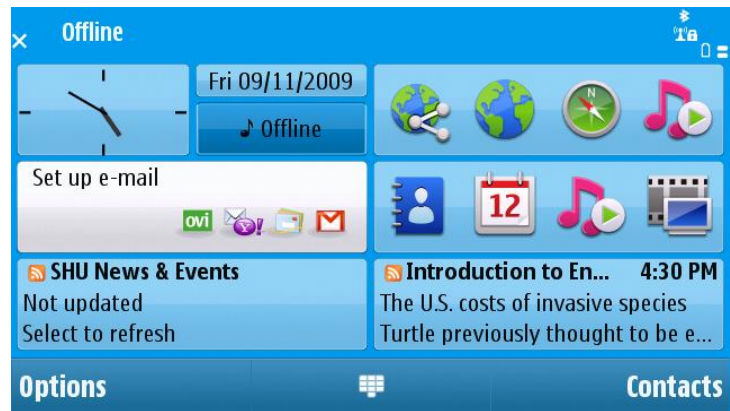

Offline mode refers to the device not having a SIM card.

Nokia N-97:: Faculty email setup

1. From the home screen Select **Set up e-mail**

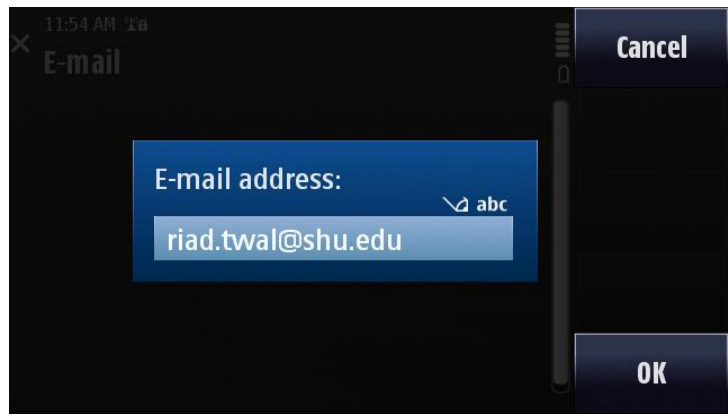

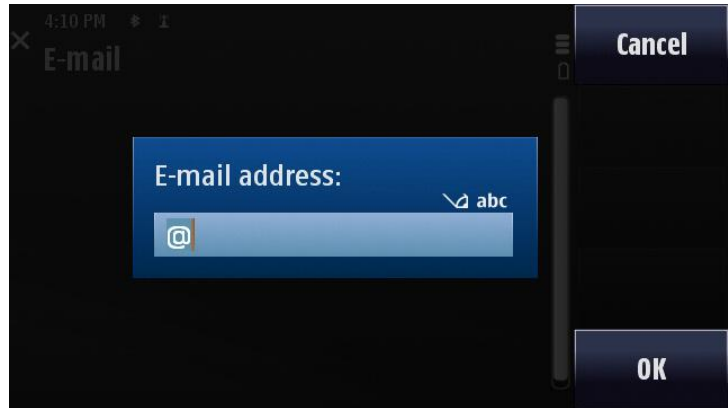

2. Select **Start**

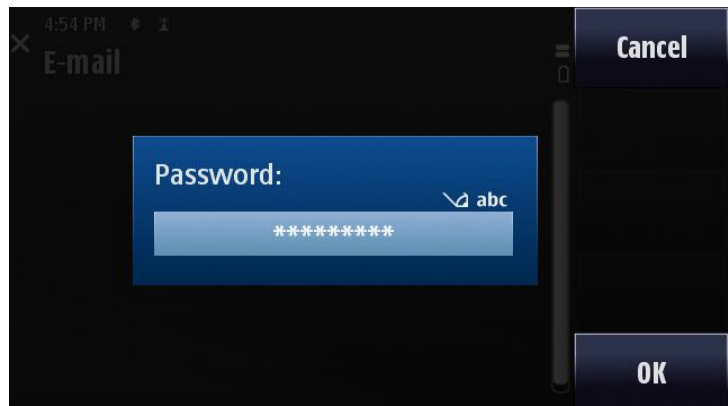

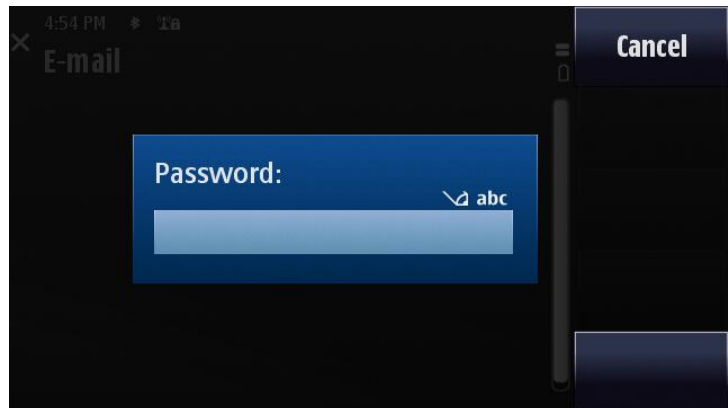

- 3. When prompted, enter your email address

firstname.lastname@shu.edu

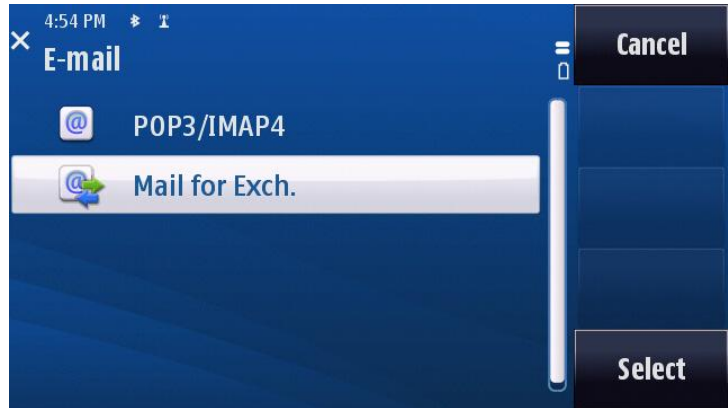

- 4. Enter your password

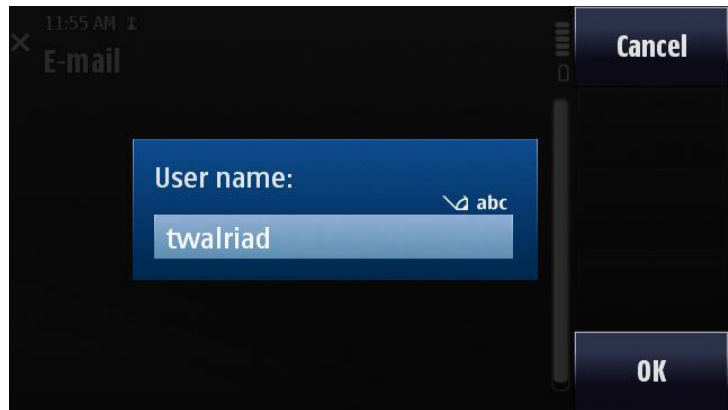

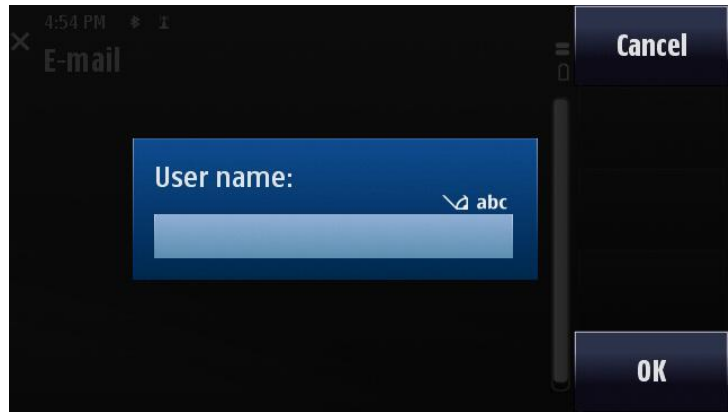

5. Select **Mail for Exch.**

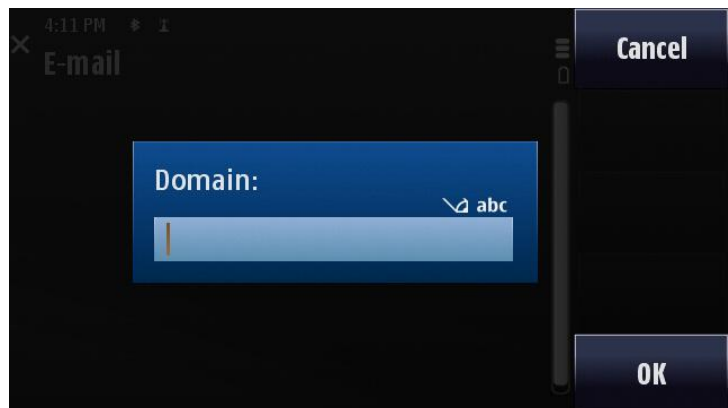

6. Enter your Username

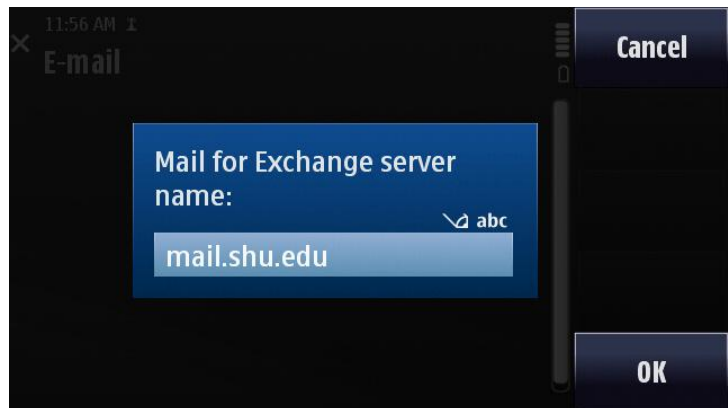

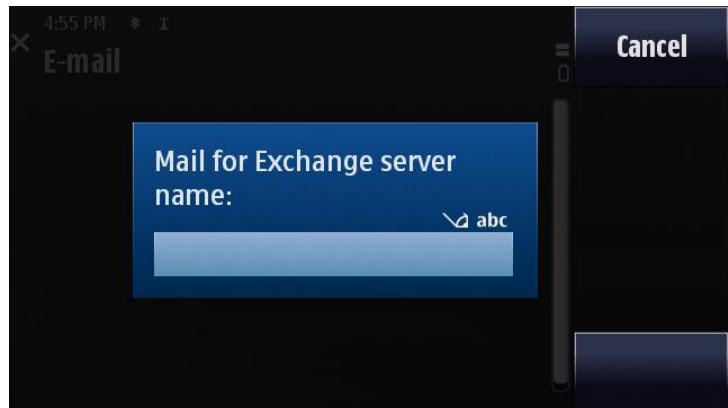

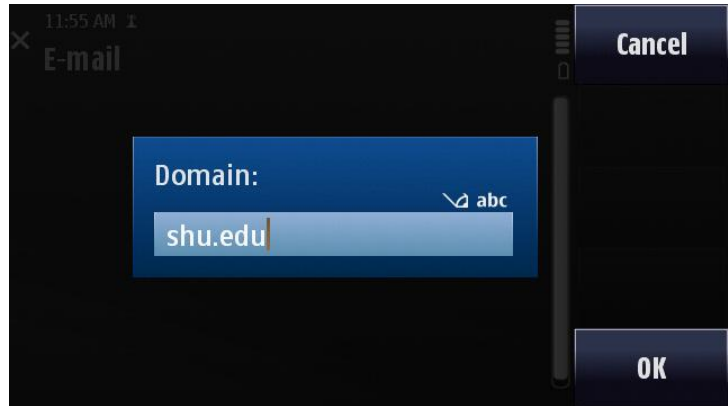

7. Enter the Domain:

shu.edu

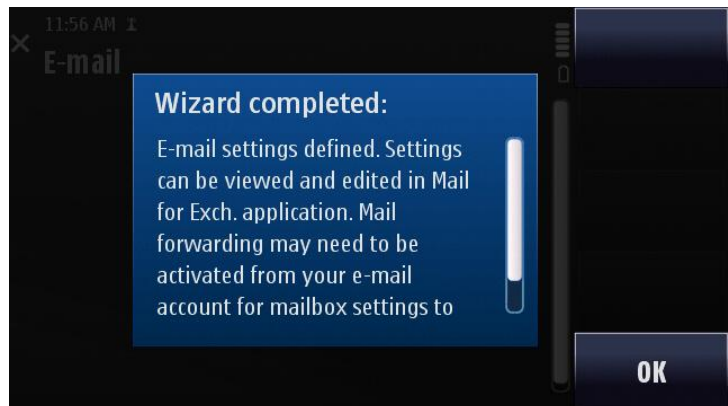

- In the Exchange Server field, enter **mail.shu.edu**

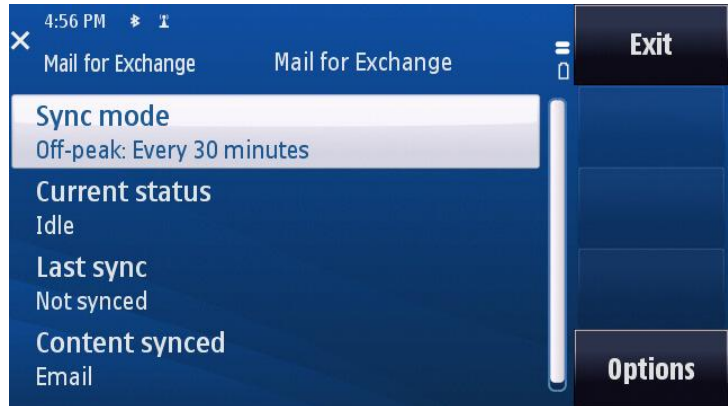

- Select OK to complete the setup

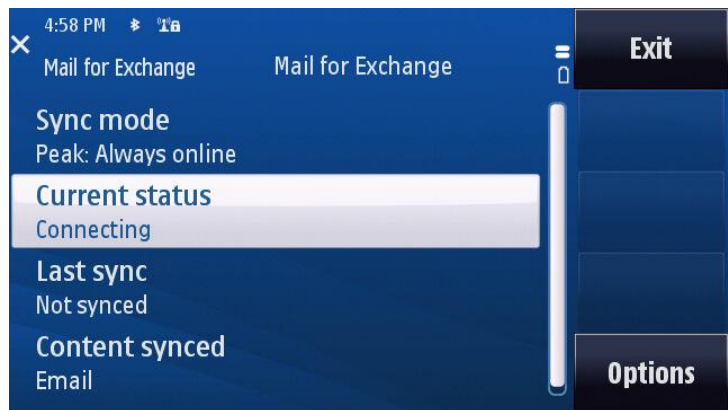

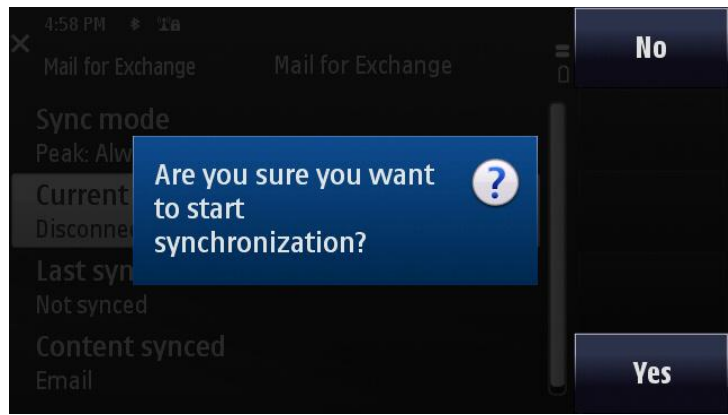

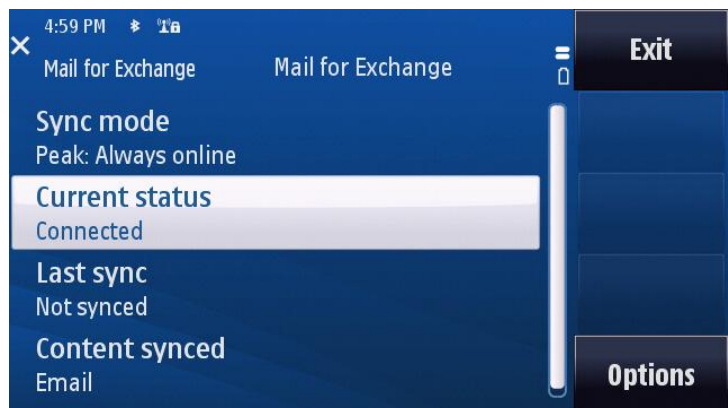

10. The next screen shows that the Current Status is Idle

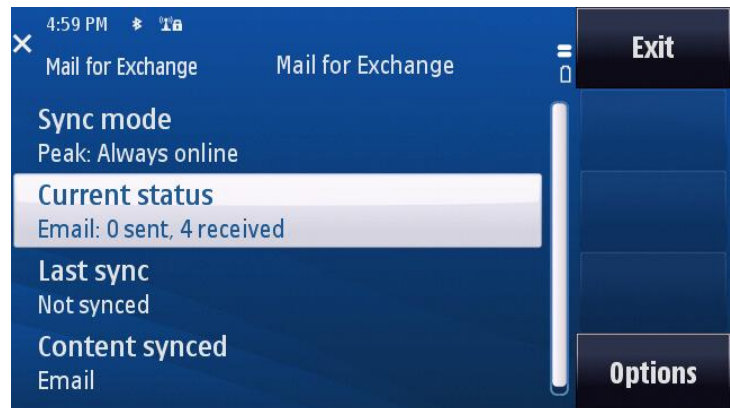

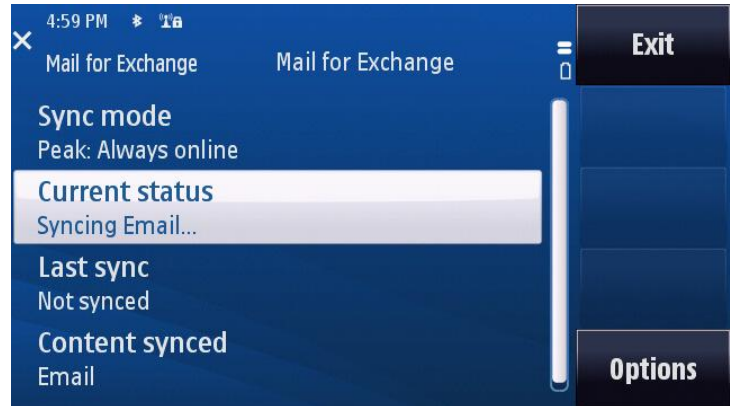

11. Scroll down and select the Current Status to start synchronization

12. Once connected, your email will start to synchronize

13. From the home screen, you will now have access to your Seton Hall University student email under **Mail for Exchange**
