Provost and Executive Vice President

Re: PhD Tuition Remission
2021-FS-23

Date: October 21, 2021

We are in receipt of 2021-FS-23, a resolution on the Removal of Doctoral Tuition Remission Benefit for Faculty, which the Faculty Senate voted to approve at its September 10 meeting. For the contracts of those faculty members at the University whose contracts require that they pursue a doctoral degree we will honor the tuition remission policy in effect at the time for those regular full-time faculty members who accepted a position within the school prior to September 5, 2019.

Going forward, faculty recruiting and appointments should comply with the degree requirements for the position under the faculty guide as well as College and departmental guidelines.
