

Senate, Faculty Development Committee Report
December, 2021

Update: Undergraduate research compensation

Dr. Shoemaker met with Darlene Robinson to get clarification on the process for hiring and payment of undergraduates involved in research with faculty. Questions remain about where this information will be posted to ensure ease of access and clarification (if needed). Dr. May is arranging a follow up with Dr. Shoemaker regarding this point.

The FDC was notified, by the executive committee, that they would be contacted by the provost office to look into the effects of the pandemic. As of the writing of this report, the committee has not been contacted.

Respectfully submitted,
Grace May, Chairperson December 11, 2021
